WORK PROGRAMME No. 3

INTER REGIONAL COORDINATION AND SUPPORT

Concept:

This programme refers primarily to the Organization's strategic direction "Facilitate global coverage and use of official hydrographic data, products and services" through enhancing and supporting cooperation on hydrographic activities among the IHO Member States (MS) under the aegis of the Regional Hydrographic Commissions (RHCs). It also contributes to the strategic direction "Assist Member States to fulfil their roles" through the IHO Capacity Building Work Programme in supporting MS as well as non-Member States to build national hydrographic capacities where they do not exist and to contribute to the improvement of the already established hydrographic infrastructure. The programme includes major topics that require a regionally coordinated approach, such as ENC adequacy, availability, coverage and distribution, maritime safety information and ocean mapping.

- Element 3.1 Programme Coordination
- Element 3.2 Regional Hydrographic Commissions and the HCA
- Element 3.3 Capacity Building
- Element 3.4 Coordination of Global Surveying and Charting Coverage
- Element 3.5 Maritime Safety Information
