IHO Secretariat Report on CB Matters

International Hydrographic Organization
Organisation Hydrographique Internationale

IHO CB Programme

Guided by the IHO CB Strategy

Good news: MSI is A priority

- Another good news:
CB Strategy is flexible:
- Training courses
 - Workshops
 - On the job training, etc.

Bad news:

Nothing will happen for free,
you are required to liaise with
the CB Coordinator to have
access to resources.

Coordination needed:

- WWNWS-SC and CBSC
- CB Coordinators and
NAVAREA Coordinators

NAVAREA Self-Assessment:

A key element for the CBSC,
for the IRCC and for the RHCs
decision making processes.

IHO CB Programme

Additionally, please provide annual reports to:

- CB Coordinators:

www.iho.int/cbssc → Members

- RHC Chairs:

IHO CB Programme

CB Procedures 1 and 4:

www.iho.int/cb → Procedures

Proc 1: description of needs

Proc 4: weights for priorities

CB Procedure 4 (Priorities):

- Number of beneficiary countries
- External resources (outside CB Fund)
- Neediness factor (UN GDP per capita)
- Priority within the region

IHO CB Programme

Annual cycle for approval (Year Y):

- RHCs consider their needs (Y-2, Y-1)
- Projects are submitted by 1 April (Y-1)
- Submissions considered at CBSC (Y-1)
with Adopted CBWP for year Y

Conclusion (1):
NAVAREA Coordinators need
to assess the needs and
communicate them to the CB
Coordinator

Conclusion (2):
Request for support from the
CB Fund needs to be done one
year ahead.

Conclusion (3):
The IHO CB Programme is a powerful tool to develop MSI capabilities in developing coastal States
