## S-100 Geospatial Information Registry Brief

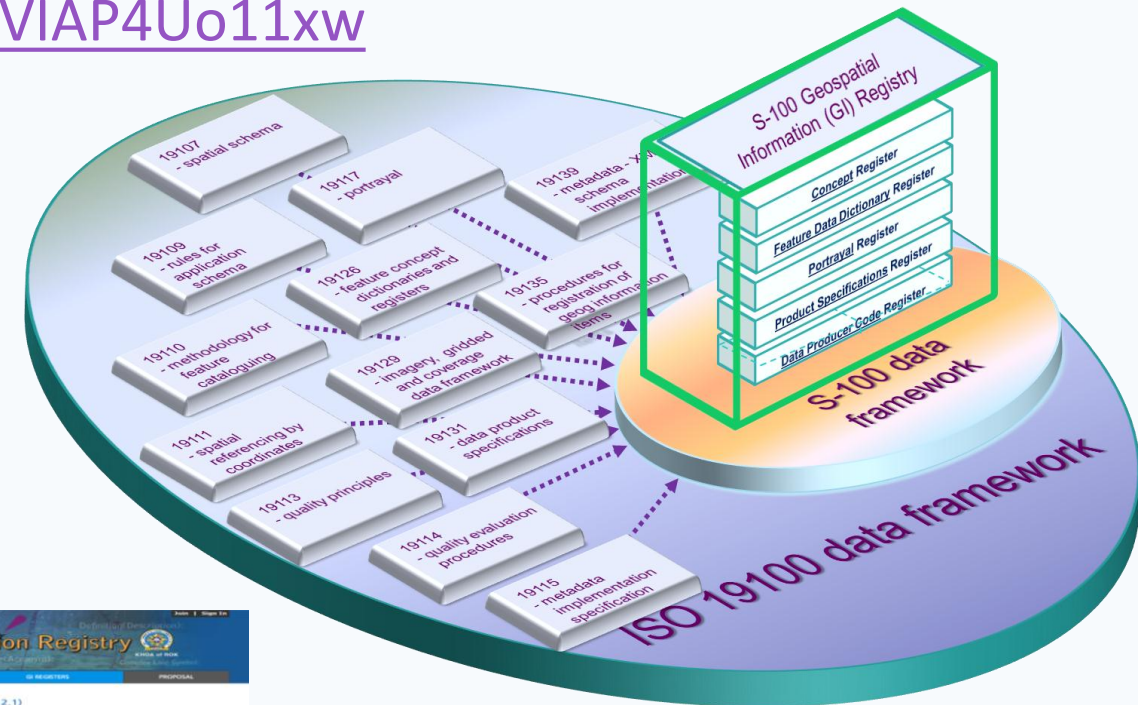

# S-100 Introduction

S-100 Intro video - <https://www.youtube.com/VIAP4Uo11xw>

January 2010 - IHO adopted S-100

S-100 is underpinned by a Geospatial Information (GI) **Registry** and component **Registers** based on ISO 19135

**IHO owns and manages the IHO Geospatial Information (GI) Registry**

Welcome to the S-100 Geospatial Information Registry (Version 2.1)

This registry is owned by the International Hydrographic Organization (IHO) and managed by the Secretariat of the IHO. The site contains many registers of hydrographic information together with registers of supplementary information owned by specialist domain experts. Each register type is further subdivided into domains a hydrographic specialist publications, see related IHO site. The administration of this registry conforms to IHO Publication S-98 Operational Procedures for the Organization and Management of the S-100 Geospatial Information Registry a copy of which can be downloaded [here](#).

The information contained in the Registry can be freely accessed. However items can only be added or changed by the managers of approved Submitting Organizations. Application to become a Submitting Organization can be made by fulfilling the requirements of the executive term available [here](#). Please note: It is not necessary to be a submitting organization in order to request new (S-42) Data Producer codes. Requests for new Data Producer codes, or changes to existing codes should be sent to the following email address: [info@iho.int](mailto:info@iho.int)

Once accepted as a submitting organization you are free to submit proposals to any register. The Registry interface undergoes periodic improvements and any difficulties using this site should be reported to the [Registry Managers](#).

# IHO Geospatial Information (GI) Registry

## ❑ Registry

- *A registry is the information system on which registers are maintained.*

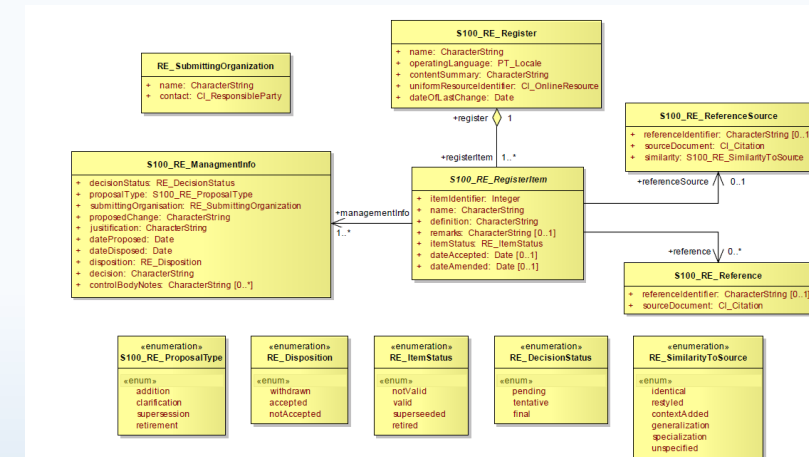

➤ **Registry** = collection of **registers**

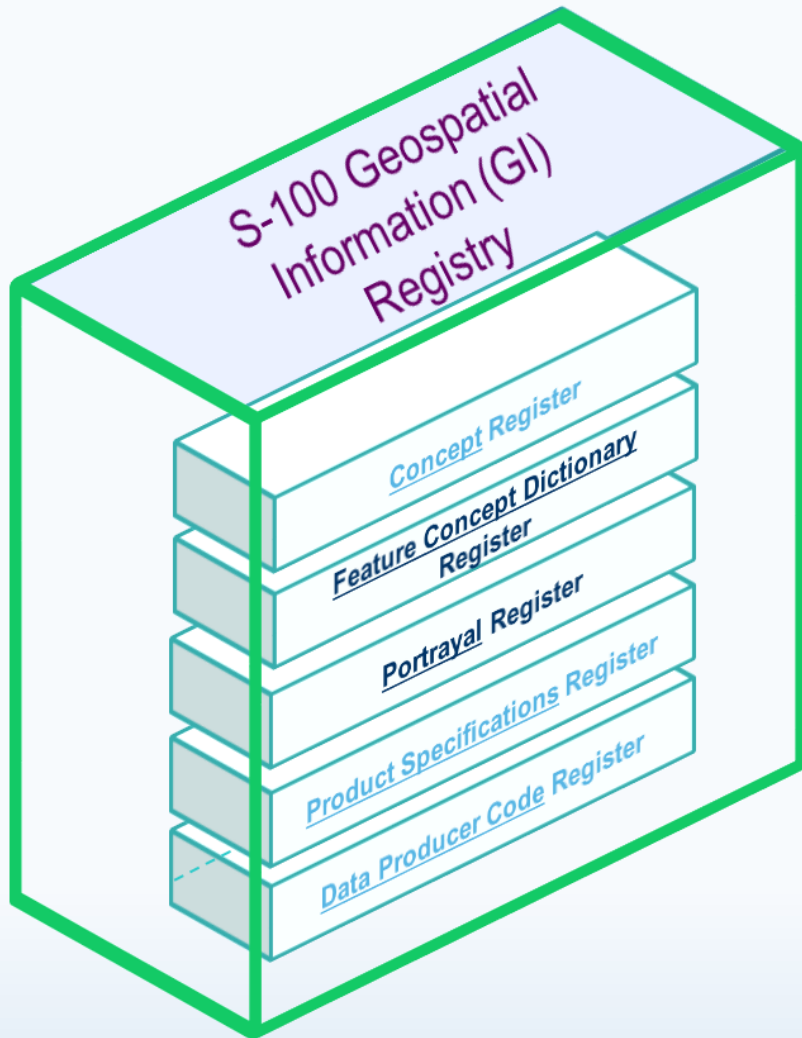

## ❑ Registers

- *A register is simply a managed list. It is easier to maintain than a fixed document, because new items can be added as needed to the register, and existing items in the register can be clarified, superseded or retired.*

➤ **Register** = collection of **tables**

# IHO GI Registry - Registers

## Feature Concept Dictionary (FCD) Register

- Register containing definitions on how to digitally describe and encode any piece of information

- a buoy
- a sounding
- a ship position
- a radio service
- .....

Details				Management Details	
Item Type :	Complex Attribute			Proposal Type :	Addition
Proposal Type :	Unspecified			Submitting Organization :	unknown
Domain :	DND Hydro			Proposed Change :	From S-021 PT
AlphaCode :	Unspecified			Justification :	From S-021 PT
Complex Attribute Name(s) :	Feature Name			Proposed :	2008-02-17
Alias :	Unspecified			Accepted :	2008-02-17
CancelCase :	NaturalName			Amended :	
				Successor :	-
				Predecessor :	-

File	Attribute	Lower	Upper	Conditional
1	[Att.] Display Name	0	1	False
2	[Att.] language	0	1	False
3	[Att.] name	1	1	False

**Definition :** The complex attribute provides the name of an entity, defines the national language of the name, and provides the option to display the name at various system display settings.

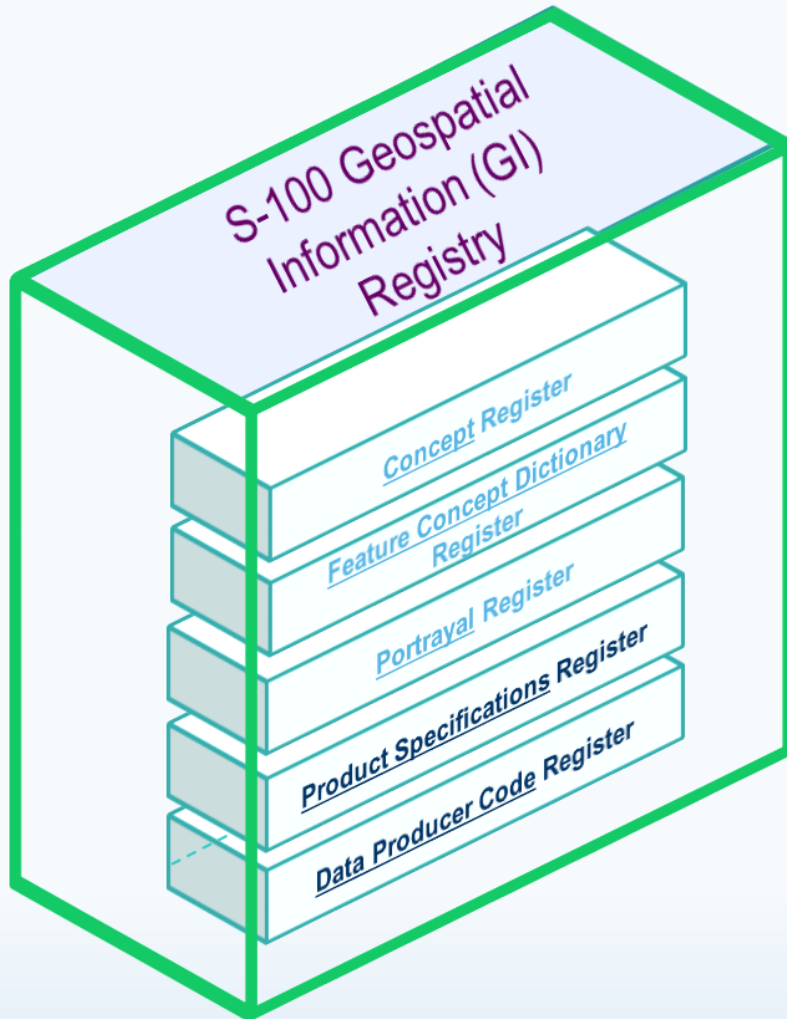

## Portrayal Register

- Register containing the elements of portrayal schemes such as

- point and pattern symbols
- complex line styles
- colour tokens

# IHO GI Registry - Registers

## Product Specifications Register

- **Repository for published versions of S-100 product specifications or data exchange standards**
  - **ENC product specification**
  - **real-time tidal height exchange standard**
  - **sea ice product specification**
  - **ship reporting exchange standard**
  - **VTMS route definition product specification**
  - **IALA, WMO, IEC, .....**
  - **AML**

S-101 ENC  
S-102 Bathymetry Surface  
S-112 Dynamic Water Level  
S-121 Maritime Boundaries  
.....  
S-201 AtoN Information  
S-210 Inter-VTS Exchange  
.....  
S-401 Inland ENC  
S-411 Ice Information  
S-412 Weather Overlay  
.....

## Data Producer Code Register

- **Register containing the list of codes identifying the official producers of a particular data product**

**S-62**

# Register Domains

- **Domains**

*Within the Feature Concept and the Metadata Registers each entry is assigned to a recognized Domain. The purpose of designating domains and a related Domain Control Body is to ensure that the key stakeholders (as represented by the domains) are consulted in any subsequent proposals to add or amend items contained in a Register.*

**Domains of the Feature Concept Dictionary Register:**

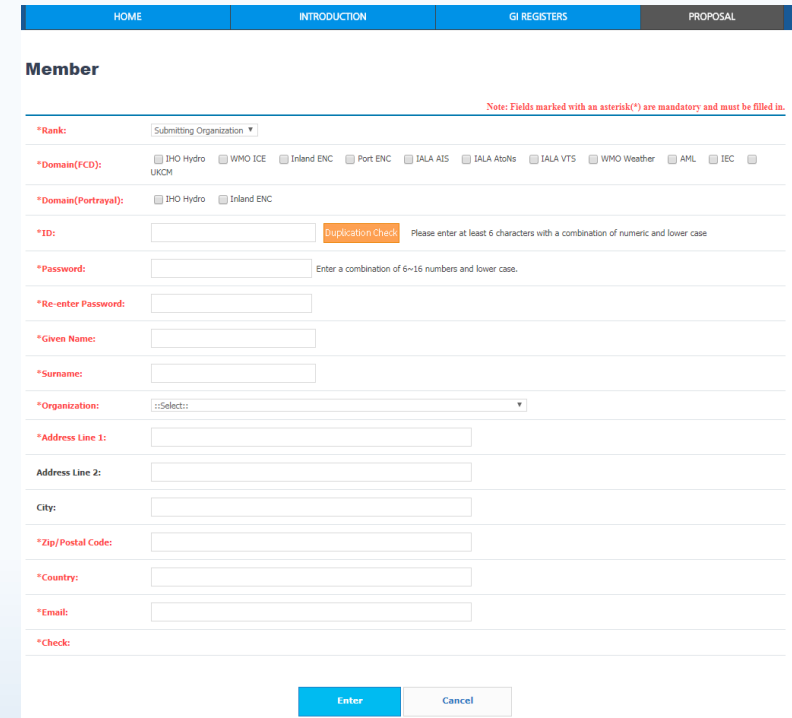

- IHO Hydrographic – (IHO Working Groups (S-100WG, NIPWG, S-101PT, TWCWG, WWNWS Sub-WG, ....))
- Inland ENC's – (IEHG)
- Sea Ice – (WMO)
- Weather – (WMO)
- IALA AtoNs – (IALA)
- IALA VTS – (IALA)
- IALA AIS – (IALA)
- Under Keel Clearance Management – (UKCM Project Team)
- IEC – (IEC)
- UML – (??)

Note: Additional domains can be added to the Register as required

# Register Domains

- Establishment of Domains
  - Any recognized organization or the Register Manager may propose a new Domain if there is a need or new requirement.
    - Application for a new Domain is submitted to the IHO Hydrographic Services and Standards Committee (HSSC).
  - IHO has an application form on-line for the establishment of roles within a Domain, with the mandatory fields for the information required for prospective members.
    - Each Domain should assign at least one representative to act as Submitting Organization and Domain Control Body representatives.
  - The Register Manager reviews all and endorses the proposals, and consults with the Executive Control Body as required.

The screenshot shows a web application interface for registering domains. At the top, there is a navigation bar with four tabs: HOME, INTRODUCTION, GI REGISTERS, and PROPOSAL. The 'GI REGISTERS' tab is currently selected. Below the navigation bar, the page is titled 'Member'. A note at the top right states: 'Note: Fields marked with an asterisk(\*) are mandatory and must be filled in.' The form contains several fields, most of which are marked with an asterisk to indicate they are mandatory. These fields include: \*Rank (with a dropdown menu for 'Submitting Organization'), \*Domain(FCD) (with checkboxes for IHO Hydro, UKCM, WMO ICE, Inland ENC, Port ENC, IALA AIS, IALA AtoNs, IALA VTS, WMO Weather, AML, and IEC), \*Domain(Portrayal) (with checkboxes for IHO Hydro and Inland ENC), \*ID (with a 'Duplication Check' button and a note to enter at least 6 characters with a combination of numeric and lower case), \*Password (with a note to enter a combination of 6-16 numbers and lower case), \*Re-enter Password, \*Given Name, \*Surname, \*Organization (with a dropdown menu for 'Select:'), \*Address Line 1, Address Line 2, City, \*Zip/Postal Code, \*Country, \*Email, and \*Check. At the bottom right of the form, there are two buttons: 'Enter' and 'Cancel'.

# Roles and Responsibilities

S-99 describes the expectations for the following Roles:

- Registry Owner – IHO owns the IHO GI Registry
- Registry Manager – IHO Secretariat appointed manager responsible for the day-to-day operation of the Registry
- Register Owner – IHO owns all of the registers
- Register Manager – responsible for the administration of a register
- Register Control Body
  - Domain Control Body (DCB) – assess and endorse proposals
  - Executive Control Body (ECB) – oversees the DCB operations and adjudicates disputes.
- Representatives of Submitting Organizations – nominated spokesperson for their submitting Organization.

# Administration of the Registers

- The FCD and Portrayal Registers can have the following proposal submission types:
  - Addition of new registered items
  - Clarification of registered items
  - Supersession of registered items
  - Retirement of registered items

# Data Producer Code Register

The Registry web interface has two distinct lists for data Producer Codes:

- Government Authorities –allocated to Governments, authorised Hydrographic Offices or relevant government institutions.
- Others – all other accredited organizations and entities.

Conforms to IHO Publication S-62.

I. IHO Member States				
Country Name	Country Code	Agency Name	Agency Codes	
Argentina	AR	Australian Hydrographic Service (AHS)	1	AR
Australia	AU	Australian Hydrographic Service - Navy and Defence	11	AN
Bahrain	BH	Hydrographic Survey Office	20	BH
Bangladesh	BD	Hydrographic Department	660	BD
Belgium	BE	MDK - Afdeling Kart - Divisies Coast (DIN)	30	BE
Brazil	BR	Directorate of Hydrography and Navigation	40	BR
Brunei	BN	Department of Marine	710	BN
Darussalam	BN	Survey Department	715	B2
Cameroon	CM	Port Autonome de Douala (PAD)	740	CM
Canada	CA	Canadian Hydrographic Service (CHS)	50	CA
Canada	CA	Canadian Forces	51	C4
Chile	CL	Servicio Hidrográfico y Oceanográfico de la Armada (SHOA)	60	CL
China	CN	Maritime Safety Administration (MSA)	70	CN
China	CN	The Navigation Guarantee Department of The Chinese Navy Headquarters	71	C1
China	CN	Hong Kong Special Administrative Region	72	C2
China	CN	Macao Special Administrative Region	73	C3
Colombia	CO	Ministerio de Defensa Nacional	760	CO

II. Other States				
Country Name	Country Code	Agency Name	Agency Codes	
		International Hydrographic Organization (IHO)	1810	AA
		Co-operating Hydrographic Offices in the Malacca and Singapore Straits (Indonesia, Japan, Malaysia and Singapore)	2010	MS
		East Asia Hydrographic Commission (EAHC)	2040	EA
Albania	AL	Albanian Hydrographic Service	600	AL
Angola	AO	Not known	620	AO
Anguilla	AI	Ministry of Infrastructure, Communications & Utilities	625	AI

# Not just for the IHO ....

- Non-IHO Product Specifications

- IALA S-201 - Aids to Navigation Information
- IALA S-210 - Inter-VTS Exchange Format
- IALA S-230 - Application Specific Messages
- IALA S-240 - DGNSS Station Almanac
- IALA S-245 - eLoran ASF Data
- IALA S-246 - eLoran Station Almanac
- IEHG S-401 - Inland ENC
- IEHG S-402 - Bathymetric Inland ENC
- WMO JCOMM S-401 - Ice Information
- WMO JCOMM S-402 - Weather Overlay

- GI Registry: IALA, IEC, IEHG & WMO JCOMM currently involved in maintaining domains in the FCD Register

- Identify the requirement
  - What information does one want to exchange in a digital, standardised way ?
    - “*enter once – use many*” applications

[illegible]

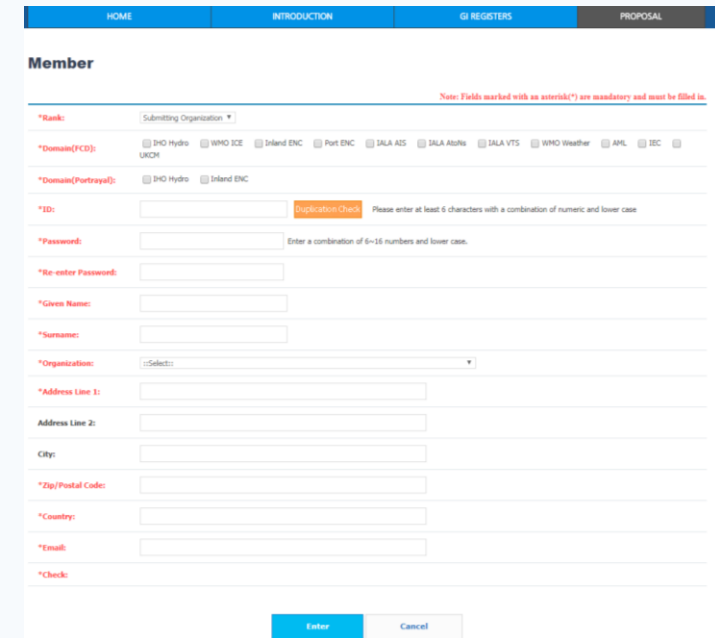

- Are the definitions that one needs already in the S-100 Registry?
  - Yes => Go ahead
    - develop own Product Specification / Exchange Standard

# S-100 Howto

- No? (Definitions not in the registry):
  - Find or become a submitting organization to:
    - revise an existing entry
    - propose something new
  - Then develop own Product Specification / Exchange Standard

The screenshot shows the 'Member' registration page of the IHO S-100 registry. The page has a navigation bar with 'HOME', 'INTRODUCTION', 'GI REGISTERS', and 'PROPOSAL'. The 'Member' section includes a note: 'Note: Fields marked with an asterisk(\*) are mandatory and must be filled in.' The form fields are: \*Rank: Submitting Organization; \*Domain(FCD): IHO Hydro, IHO ICE, Inland ENC, Port ENC, SIALA AIS, SIALA Acoustic, SIALA VTS, WMO Weather, AHL, SEC; \*Domain(Portrayal): IHO Hydro, Inland ENC; \*ID: (with a 'Duplicate Check' button and a note: 'Please enter at least 6 characters with a combination of numeric and lower case'); \*Password: (with a note: 'Enter a combination of 6-16 numbers and lower case'); \*Re-enter Password; \*Given Name; \*Surname; \*Organization: (dropdown menu); \*Address Line 1; Address Line 2; City; \*Zip/Postal Code; \*Country; \*Email; and \*Check. At the bottom are 'Enter' and 'Cancel' buttons.

- IHO/HSSC will not create or control definitions or standards outside its scope
  - But it can help and advise if asked ...

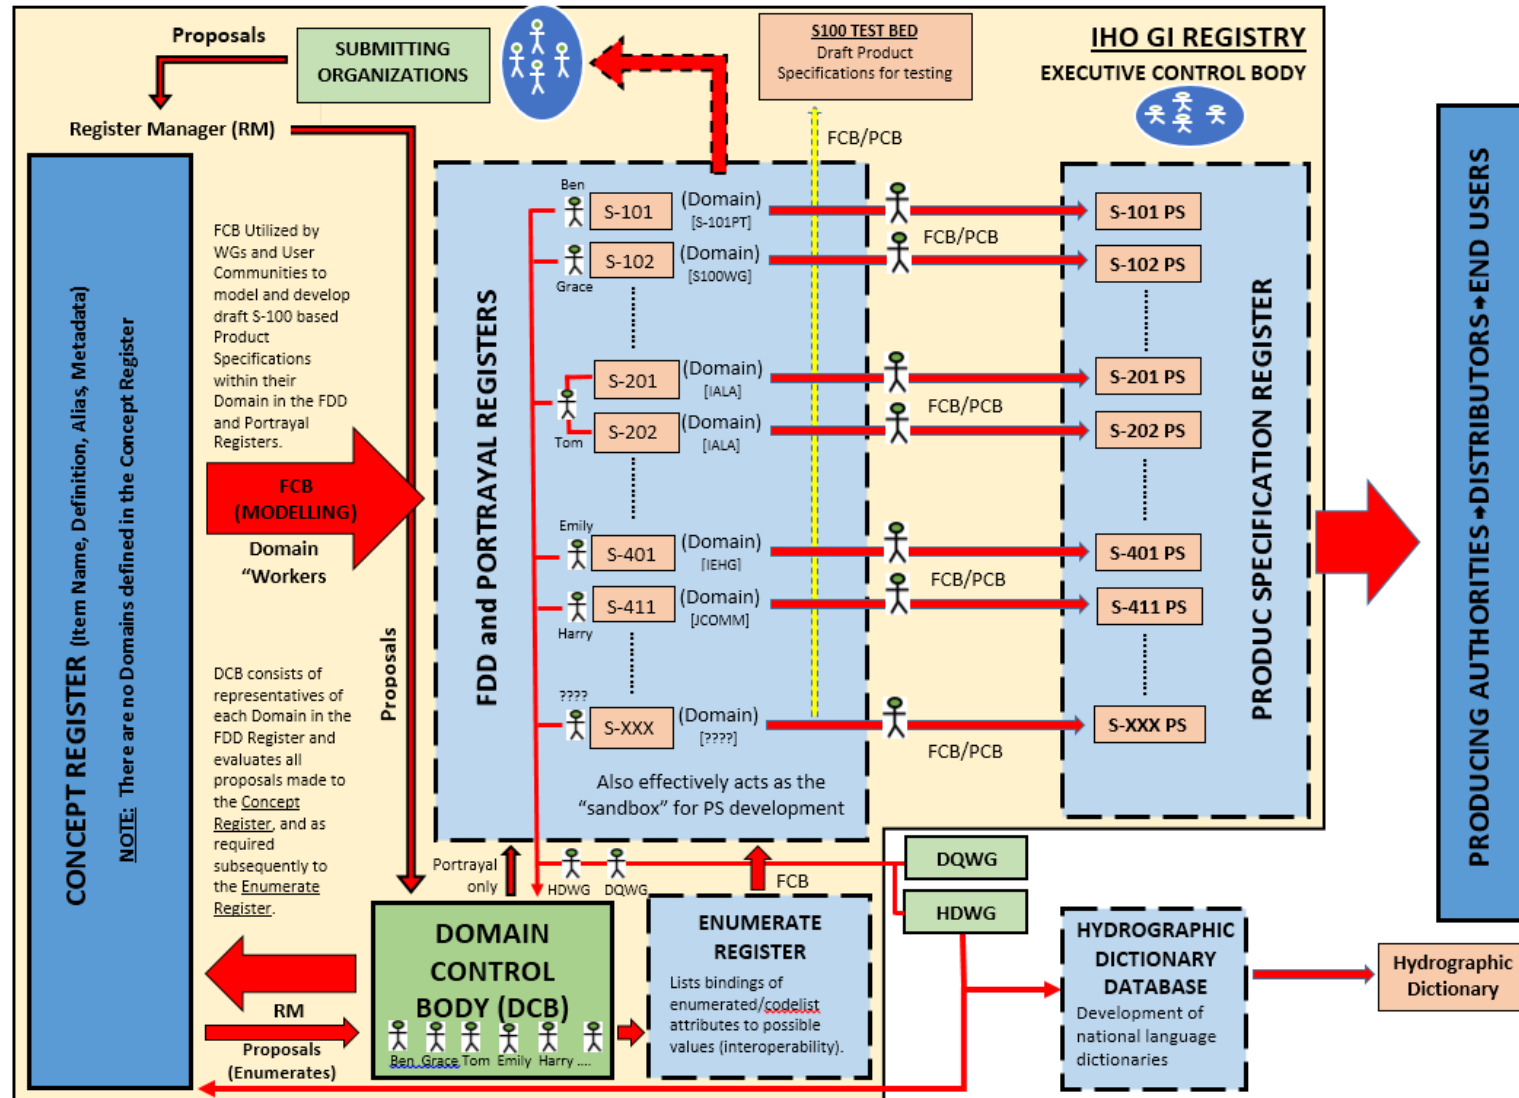

# Ongoing Development

- Implement a “true” Concept Register
  - Subsequent possible restructure of the FCD Register
  - Introduction of “Enumerate” and “Codelist” Registers
- Review current content of the FCD Register
  - Likely impact on PS in development
- Draft Guidelines and Conventions document for Register content and Registry users
  - Proposers, Control Bodies, PS developers
- Connection and establish relationship with Hydrographic Dictionary database
- Review of S-99
