

SCRUM

Review & Activities

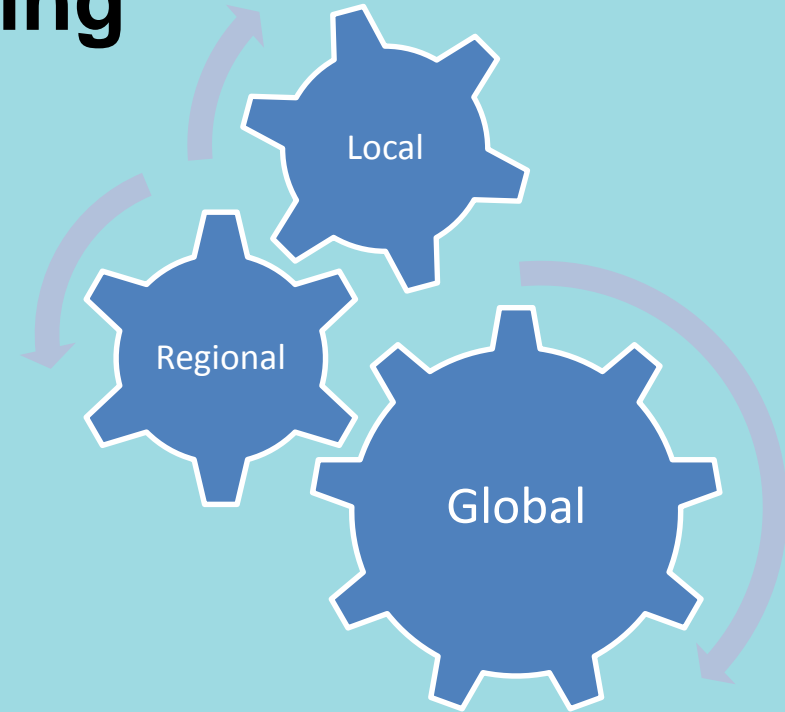

Canberra, Australia

November 12, 2018

Sub-Committee on Regional Undersea Mapping

Premise: Regional compilations and expertise are important building blocks of the GEBCO global synthesis

- Encourage the *contribution* of regional data compilations into GEBCO products
- Facilitate *collaboration and cooperation* between regional efforts and GEBCO
- Foster *communication* between GEBCO and regional efforts

SCRUM Terms of Reference

- Maintain liaison and cooperate with regional mapping efforts
- Review and validate regional products
- Foster coordination between regional mapping projects and the IHO DCDB
- Encourage establishment of new regional mapping projects to fill gaps
- Establish, support, and/or disband working groups or project teams, as needed
- Work closely with other GEBCO Sub-Committees and subordinate bodies of the IHO and IOC on matters of common interest
