

**WORLD WIDE NAVIGATIONAL WARNING SERVICE SUB-COMMITTEE
(WWNWS-16)
VALPARAÍSO, CHILE, 02 - 06 SEPTEMBER 2024**

LOGISTIC INFORMATION

1- PLACE

The meeting will take place in the facilities of the “Training Center of the Navy” (known as CENTARM by its acronym in spanish), placed in Pedro León Gallo N°585, Playa Ancha, Valparaíso.

2- LODGING

There are plenty of hotels, apart hotels and departments that can be easily found with apps like Booking, Trivago, Airbnb, etc.

Although Valparaíso is closer to the place of the meeting, it is a Port City, so it could be more dangerous, especially by night; so it is recommended to book hotels in Viña del Mar, which is a Touristic City. The travel time between Viña and Valparaíso is of about 30 minutes (by car) as long as there is no heavy traffic. Public transportation is also available.

Some options in Viña del Mar are:

3- TRANSPORTATION

A. From Santiago International Airport (SCL) to Valparaiso.

There are two main alternatives. The first one is a direct transfer or taxi that takes about 1,5 hours and costs approximately USD \$100.

In the last years there have been an increase of illegal transportation, like pirate taxis and not certificated Ubers. For your safe, we recommend the use of only official airport transportation. Learn more in the next link:

- Official transportation: <https://www.nuevopudahuel.cl/official-transportation?language=en>

Also you can take a bus to one of the bus stations in Santiago (30-40 minutes away from the airport), and then take an interurban bus to Viña del Mar or Valparaiso (2 hours travel aprox.). This whole trip will take about 2.5 hours and cost USD \$10 for both transportations approximately (one way).

Bus schedule starts at 6:20 a.m. and the last bus leaves at 10:00 p.m. Departure every 15 minutes. There are two bus stations; “Terminal Alameda” and “Terminal Pajaritos”. We recommend that you choose Terminal Pajaritos, which is located outside of downtown Santiago, so the travel time is shorter to Valparaiso or Viña del Mar.

If you consider this option, we recommend that you plan your flights trying not to arrive at night and take the afternoon buses, considering the approximate 2 hour trip to Valparaíso. Valparaíso has become an unsafe city in recent years, especially at night. Viña del Mar is safer than Valparaíso, but you should always be careful at night.

Some days tickets get sold out very fast (Friday afternoon or Saturday mornings), so may consider buying tickets in advance at the following links:

- [Turbus](#) (This company has the airport shuttle buses as well)
- [Flixbus](#)
- [Condor](#)

B. During the meeting week

- Uber, Cabify and Didi are available and they work properly.
- Local buses operate during the day. Their route can be consulted in applications such as “google maps” or “moovit”. Each trip costs about USD \$0.8
- Rent a car is an option for about USD \$50 per day.
- Local train call “Metro Valparaiso”. Terminal Station “Puerto” is about 4 km away from the meeting venue.
- It is the intention to have an approach bus financed by SHOA that will make the journey between Viña deñ Mar and the meeting venue.

4- LUNCH

There are three alternatives for lunch:

1. There are a few of local restaurants near the meeting place.
2. In the place of the meeting, there is a dining room available where you can bring your own food.
3. On the same dining room, it is posible to buy lunch, but there is only available a single menu, and the intention to take this option must be notified the day before.

SHOA will provide coffe brake.

5- ELECTRICITY

The electricity in Chile is 220 Volts European CEE 7/16 Europlug. And also "L" type Italian CEI 23-6/VII. Plugs are type "C".

7- CURRENCY

Similarly, card payment systems are used in many stores. The most popular cards accepted are Visa, Mastercard and American Express.

8- TIME ZONE

9- WEATHER AND CLIMATE

In Valparaíso, summers are comfortable, arid and clear, and winters are cold and partly cloudy. During the course of the year, the temperature generally varies from 7 °C to 20 °C and rarely drops below 4 °C or rises above 25 °C.

The *cool season* lasts 3.1 months, from June 2 to September 5, and the average daily maximum temperature is less than 16 °C. The coldest month of the year in Valparaíso is July, with an average minimum temperature of 7 °C and a maximum of 15 °C.

The *rainy season* lasts between 5 to 3 months, from April 15 to September 23, with a moving interval of 31 days of rainfall of at least 13 millimeters. The month with the most rain in Valparaíso is June, with an annual average of 54 millimeters. In case of rain, we recommend using layers or waterproof ponchos rather than umbrellas, mainly because Playa Ancha is particularly windy.

12- SAFETY CONSIDERATIONS

From 2018 to date in Chile the crime has increased. For this reason, we propose some safety consideration for a better experience. In general, Valparaíso and Viña del Mar are fairly quiet cities compared to others such as Santiago. The seasons where more robberies occur are usually in the summer with visitors and tourists (December to March). It is unlikely that something will happen during your visit, but it is never too much to know what precautions to take.

Tourism schedule

In the mornings there is no major danger of touring Valparaíso or Viña del Mar. When the sun goes down, it is preferable to be as cautious as possible in transportation and in the center of the cities, since this is when the greatest number of robberies and accidents occur.

Whenever possible, prefer to go out with a companion for a walk and avoid taking photographs.

Protect your belongings

Do not carry your cell phone in plain sight, for example in the back pocket of your pants or in your hand meanwhile you're walking.

Do not store valuables in easy-to-open outside pockets of backpacks. This type of theft is often seen on public transportation. Prefer to store them in internal pockets, secret pockets or use the backpack forward.

As with cell phones, do not carry your camera around your neck or in your hand if you are not using it. Rather carry it inside your bag or backpack until you are going to use it.
